ISYS90045 Assignment 2 General tips

Case Study:

Choose the case you are most interested in

Group Presentation:

All group members must be part of the presentation.

Cover all criteria that the client has asked for – do not skip one thinking the client won't notice!

Consider:

Slides (ppt), diagrams and video/audio in the presentation they are not "compulsory".

Think carefully how these tools will add to the presentation and add further information

Audience:

The group must present as a cohesive whole rather than 5 individuals.

Rehearse, rehearse, rehearse

Some pitfalls to avoid

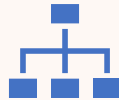

Is there a template we can follow?

No, why?

Executive summary, what is this?

Overall summary of the proposal. When do we write this?

Governance, what is this?

Governance structure is not a project team structure i.e. is a business analyst in the Governance team?

Risk, what is this?

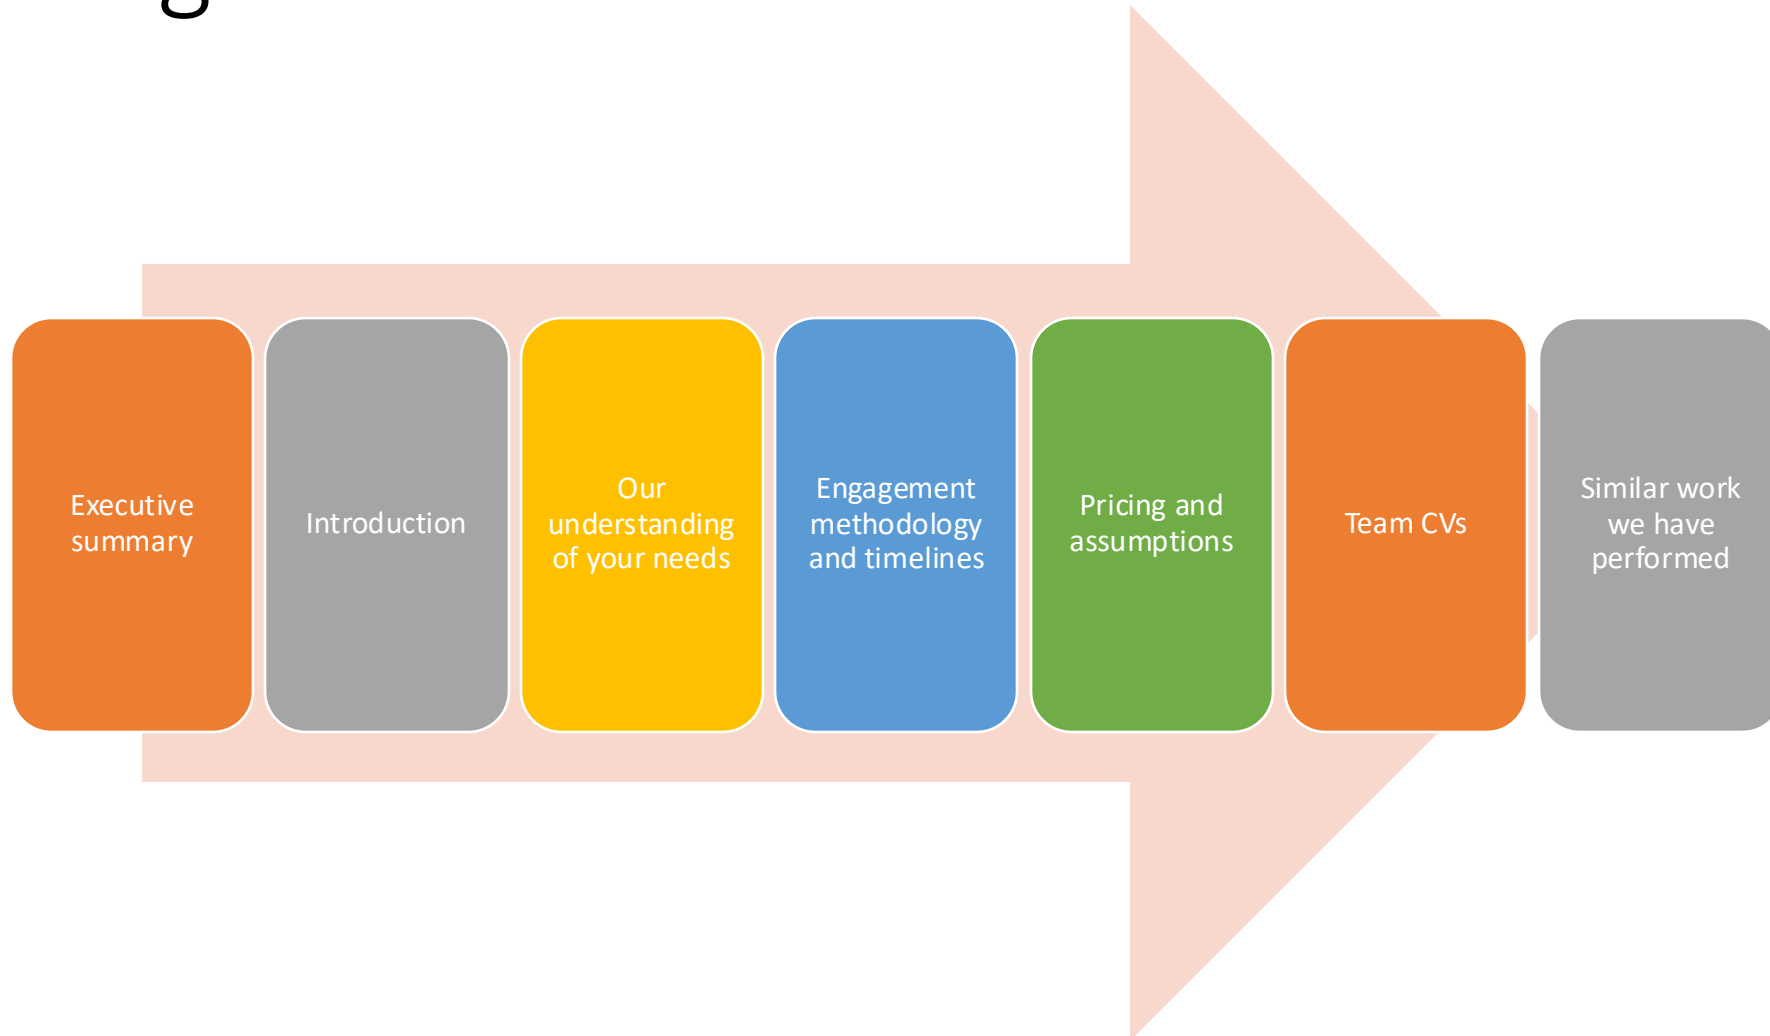

Look at the different matrices for risk and mitigation

References

Yes, it's very important to reference all material

Case Studies: Meet the Clients

Christina Parkes

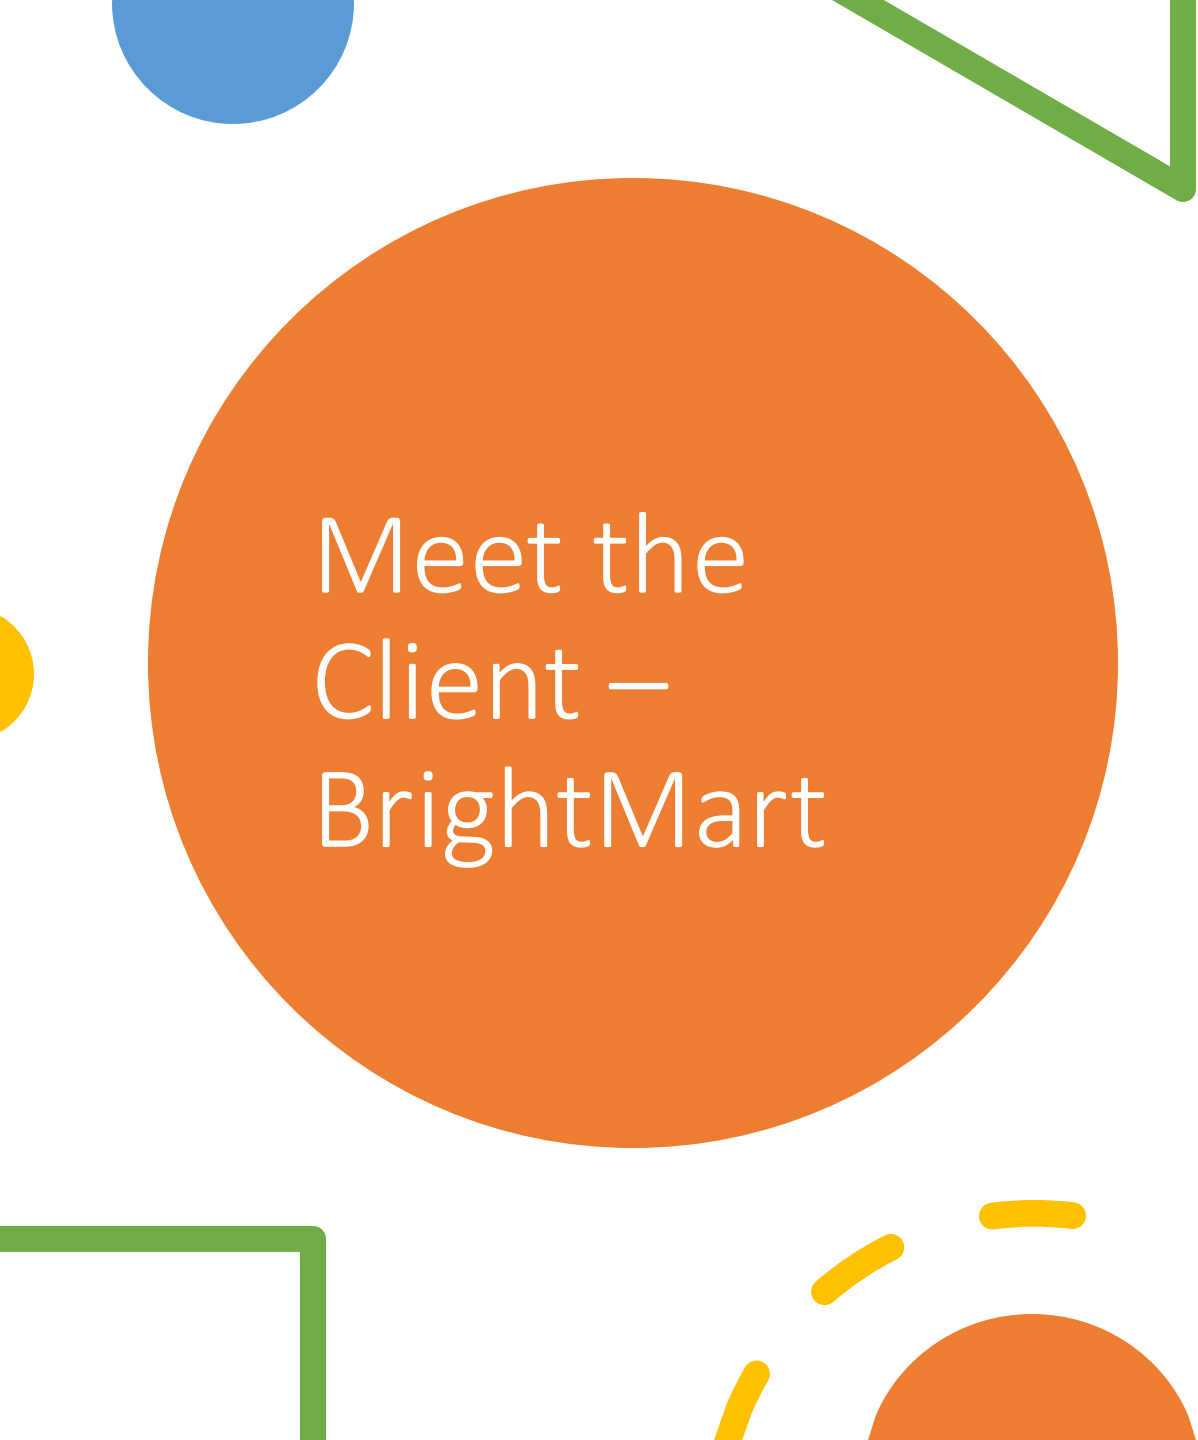

Meet the Client – AMA

- 
- Key points of AMA;
 - Be clear on what the client are asking for
 - All three have their own political, organisational and technical complexities
 - Who are the different actors (if known) – and who is the client?
 - What is unknown at this point? What will you need to ask the client?
