

THE UNIVERSITY OF
MELBOURNE

ISYS90049 Digital Business Analysis

Week 1:

Introduction to Business Analysis

Dr Julian Marx

School of Computing and Information Systems

Lecture Outline

- Introduction of the teaching team
- Subject overview
- Why study Digital Business Analysis?

Teaching Team

Dr Julian Marx
*Subject Coordinator
and Lecturer*

Dr Stella Peng
*Associate Lecturer and
Head Tutor*

Abhijit Bhaumik

THE UNIVERSITY OF
MELBOURNE

ISYS90049 Digital Business Analysis

Subject Overview

Why you should study ISYS90049

- The *key objective of the MIS* is to equip students with the *knowledge and skills* needed to **manage** and **change** *business processes* through information technology (IT) and information systems (IS).
- IT/IS have *great potential* to enhance **organisations' processes** and **performance**, but it doesn't happen magically.
- The Business Analysis discipline *incorporates* **business and technology knowledge** to enable *organisations* develop *IT solutions* that address their *needs* and deliver *value* to *stakeholders* and manage the associated *change*.
- Business Analysts play a **dynamic** and **important role** in *today's digital age*.

ISYS90049 Intended Learning Objectives

1. Describe and apply requirements gathering techniques
2. Use appropriate modelling techniques to best understand a *business context* and *need* for an information system
3. Acquire conceptual, abstraction and analytical skills to design and analyse *business problems*
4. Demonstrate how to *effectively* document information systems solutions to *business problems*

How can BA knowledge help your career?

When poll is active respond at **PollEv.com/julianmarx588**

Send **julianmarx588** to **+61 427 541 357**

Generic Skills

On completion of this subject, students should have also developed the following skills:

1. Analytical thinking
2. Abstraction and conceptualisation skills
3. Report writing skills
4. Enhanced ability to work in a team

Prescribed Textbook

Online book is available from the Subject LMS > Modules > Subject Information > Textbook

Industry Recognised

IIBA® Endorsed Course

We will be drawing heavily from the work carried out by the International Institute of Business Analysis (IIBA).

Formed in 2003, it has developed the **Business Analysis Body of Knowledge (BABOK)**.

BABOK (Business Analysis Body of Knowledge)

- ***Body of Knowledge***: A collection of concepts, activities, deliverables, competences, principles etc. that is considered as standard within a profession.
- ***BABOK Table of Contents***
 - *Introductory Concepts (chapters 1-2)*
 - ***Knowledge Areas (chapters 3-8)***
 - *Underlying Competencies (chapter 9)*
 - *Techniques (chapter 10)*
 - *Perspectives (chapter 11)*

BABOK Knowledge Areas

Business Analysis and Planning and Monitoring

- Tasks that business analysts perform to organise and coordinate the efforts of business analysts and stakeholders.

Elicitation and Collaboration

- Tasks that enable the analyst to collect information through activities and confirm the results obtained.

Requirement Life Cycle Management

- Tasks that enable the BA to manage and maintain requirements and design information from inception to retirement

Strategy Analysis

- Tasks that enables collaboration with stakeholders to identify a need of strategic/tactical importance, address that need, and align the resulting strategy

Requirement Analysis and Design Definition

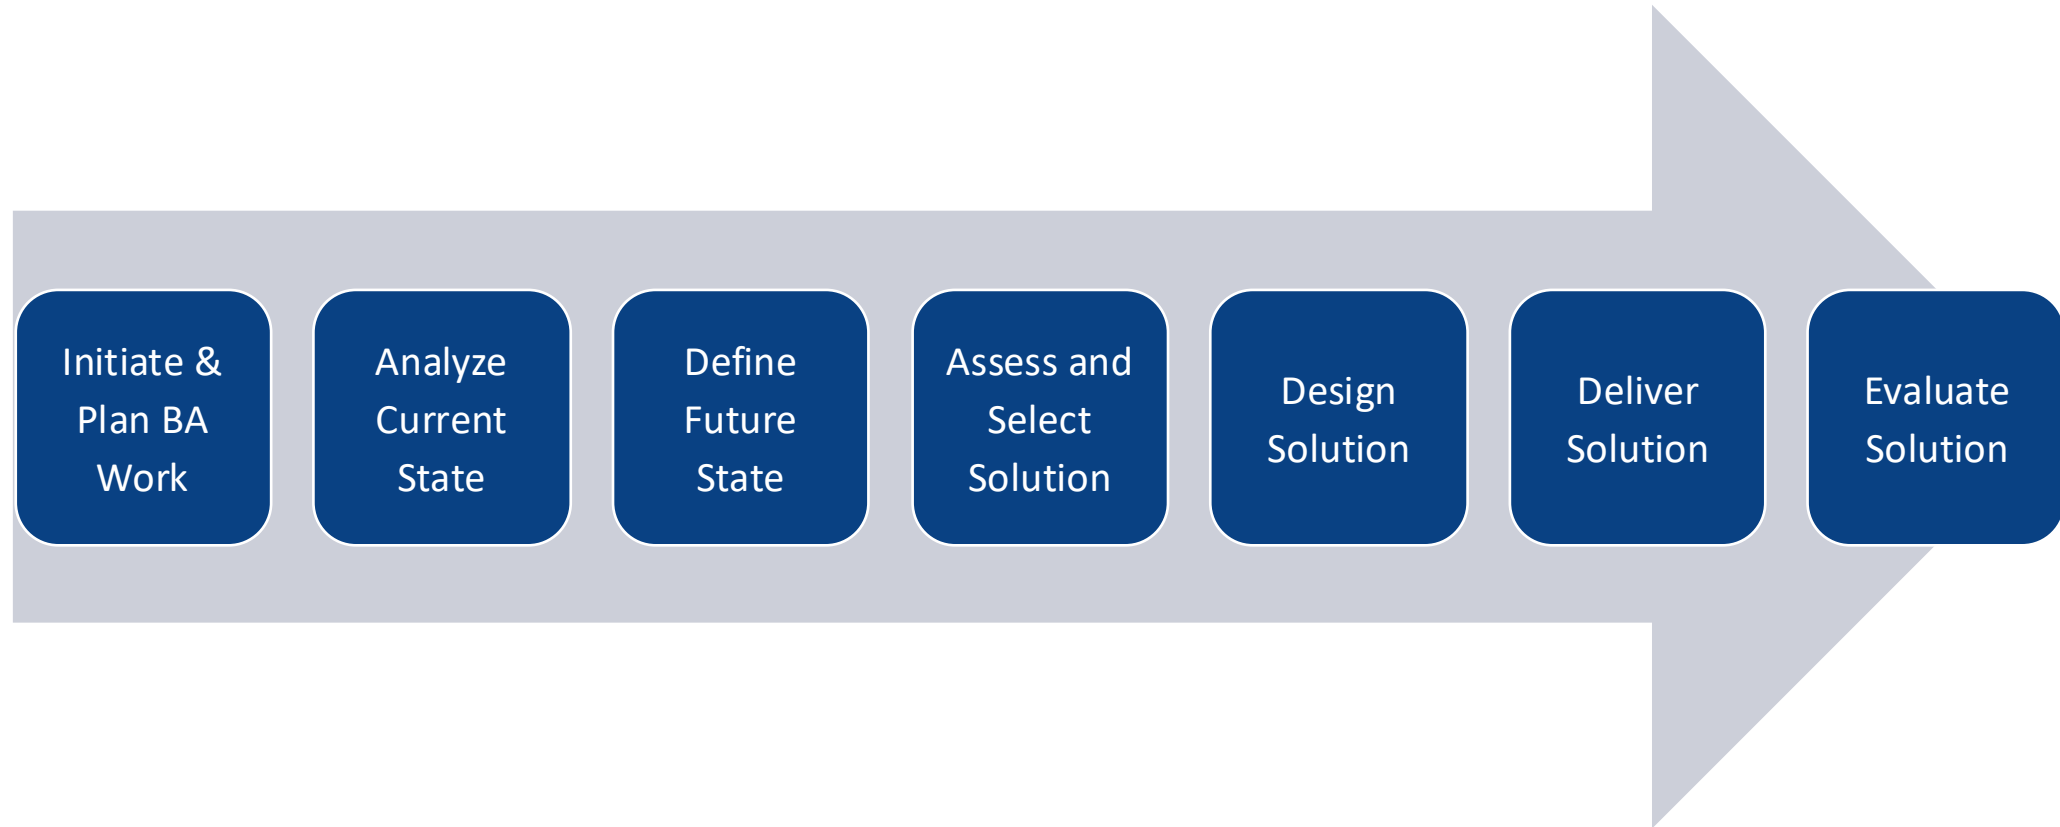

- Tasks that business analysts perform to structure and organize requirements

Solution Evaluation

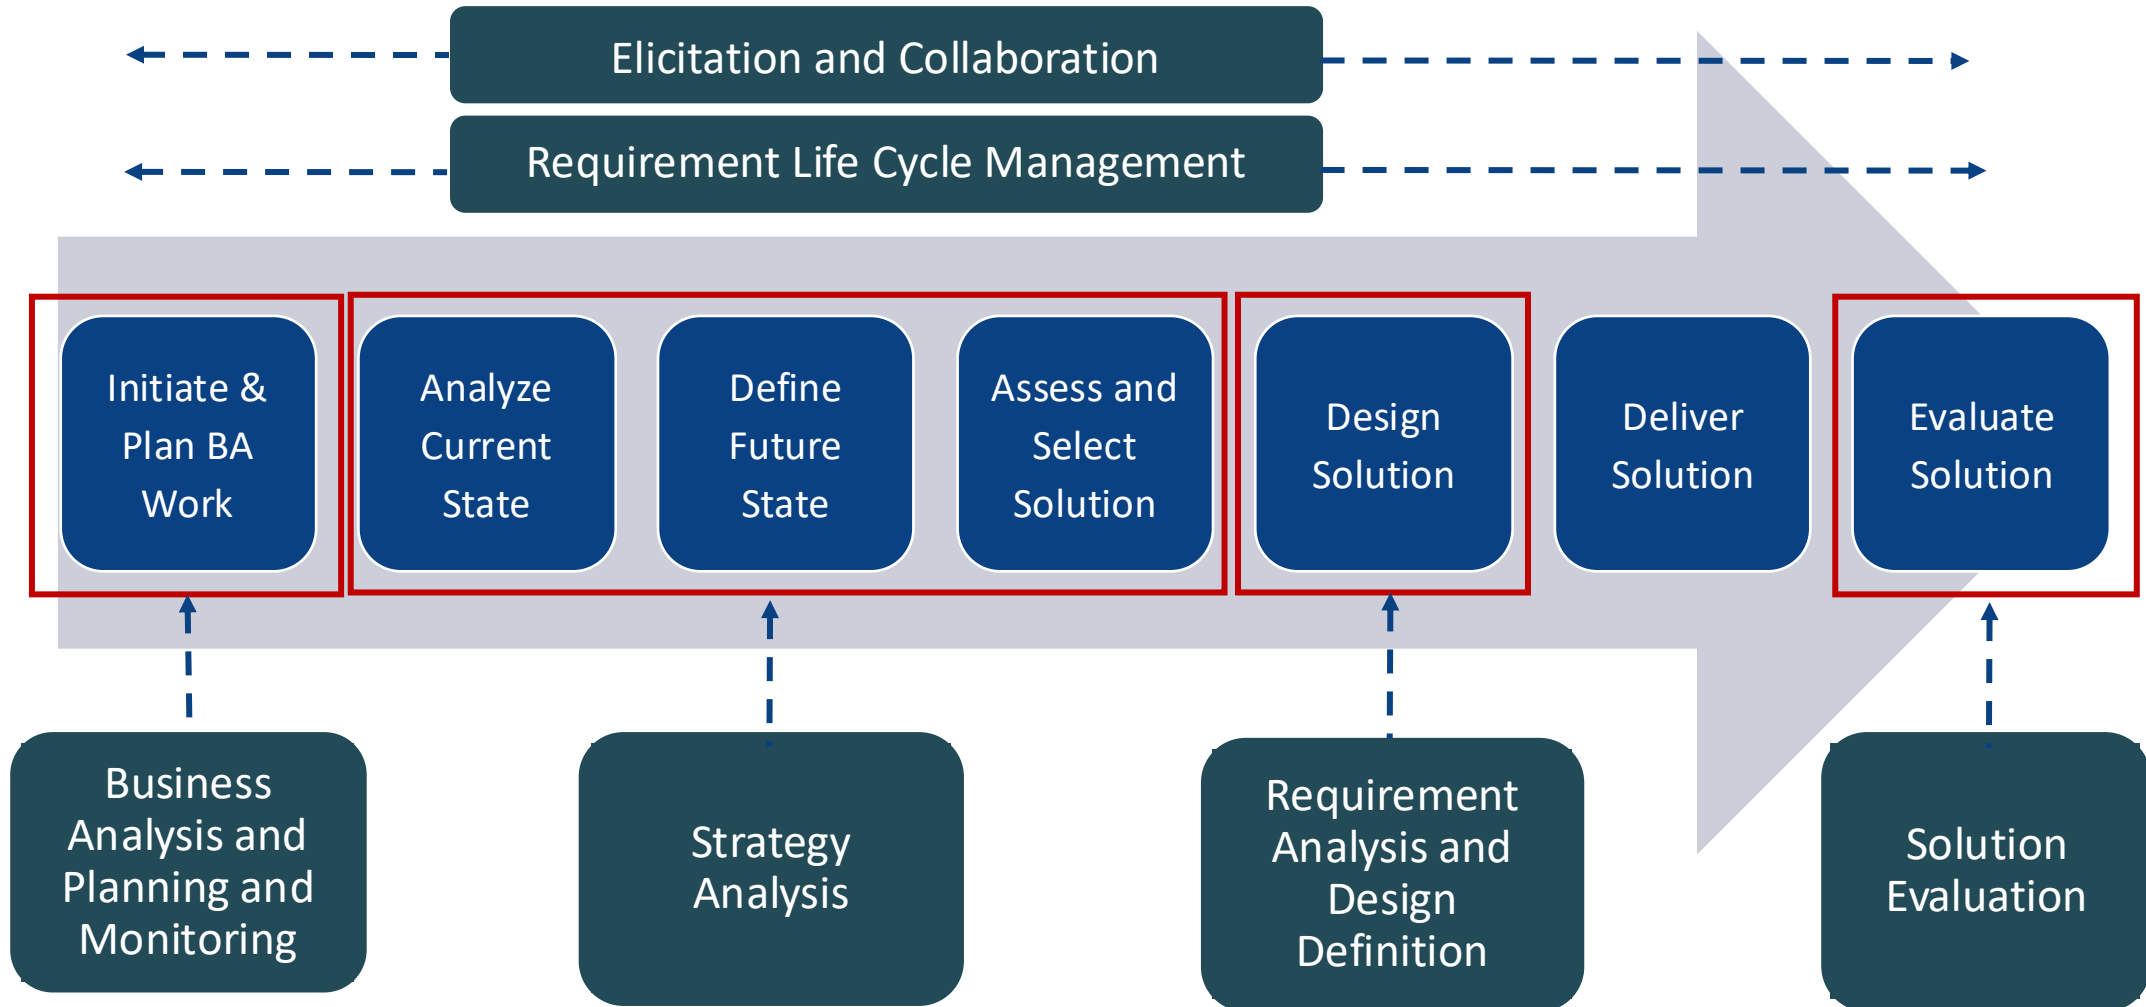

- Tasks that business analysts perform to assess the performance of and value delivered by a solution

Business Analysis Process

Business Analysis Process & Knowledge Areas

Semester Schedule (1/3)

**Replacement
lecture!
(Thursday 14:00-
16:00)**

Week (Beginning Monday)	Lecture (Monday 3-5pm)	Tutorial	Remark
1 Mon, 2 Mar 2026	Introduction Reading: Chp 1 ➡	No class	
2 Mon, 9 Mar 2026 (Labour Day holiday on 9 Mar, Monday)	Business Analysis Planning and Monitoring Reading: Chps 4&6 ➡	Tutorial 1: BA Key Concepts Group Governance Plan Tutorial Slides	• Assignment 1 released • Group formation
3 Mon, 16 Mar 2026	Context Analysis Reading: Chps 2&3 ➡	Tutorial 2: Business Analysis Plan Assignment 1 Walkthrough Tutorial Slides	• Finalise LMS group registration • Group Governance Plan submitted by Sunday, 22 Mar
4 Mon, 23 Mar 2026	Assignment 1 Q&A Elicitation and Collaboration Reading: Chp 5&7 ➡	Tutorial 3: PEST & SWOT Analyses Tutorial Slides	• Each student <i>posts</i> their draft work for their section on the LMS Group Homepage – Discussions

Semester Schedule (2/3)

5 Mon, 30 Mar 2026 (Easter holiday from 3 Apr, Friday)	Problem Analysis Reading: Chp 12 ➡	Tutorial 4: Elicitation Case Study - GSA Banking Group Tutorial Slides	Other students in the same group review each draft and provide feedback on the LMS Group Homepage – Discussions
Easter, Non-teaching period & UA Common Vacation Week (3-12 Apr)			
6 Mon, 13 Apr 2026	DBA in Practice (Guest Lecture) Malini Jayaganesh (IIBA Melbourne Chair)	Tutorial 5: Problem Analysis Assignment 1 Q&A Tutorial Slides Mid-Semester Survey	- Assignment 2 released - Update Governance Plan for A2 and submit it - Practice Exam (Section 1) released
7 Mon, 20 Apr 2026	Requirements Life Cycle Management Reading: Chp 15 ➡	Tutorial 6: Assignment 2 Walkthrough Practice Exam (Section 1) Explained Tutorial Slides	- Submit Assignment 1 Report by Tuesday, 21 Apr, 9pm - Submit Group Member Evaluation by Friday, 24 Apr
8 Mon, 27 Apr 2026	Strategy Analysis (Current State) Reading: Chp 8 ➡	Tutorial 7: Requirements Lifecycle Management Tutorial Slides	Practice Exam (Section 2) released

Semester Schedule (3/3)

9 Mon, 4 May 2026	Strategy Analysis (Future State) Reading: Chp 13 ➞	Tutorial 8: Strategy Analysis (Current State) Persona template (Partially filled) CJM template & example (Partially filled) Tutorial Slides	Each student <i>posts</i> the draft work for their section on the LMS Group Homepage – Discussions
10 Mon, 11 May 2026	Requirements Analysis and Design Definition Reading: Chp 15 ➞	Tutorial 9: Strategy Analysis (Future State) CJM template (completed) Tutorial Slides	- Each student <i>reviews</i> the draft work of other members and posts their feedback on the LMS Group Homepage – Discussions - Practice Exam (Section 4) released
11 Mon, 18 May 2026	Solution Evaluation Reading: Chp 19 ➞	Tutorial 10: Use Cases and Wireframes Assignment 2 Q&A Tutorial Slides	Mock Exam released
12 Mon, 25 May 2026	DBA in Practice (<i>Guest Lecture</i>)	Tutorial 11: Metrics and KPIs Revision and Exam Overview Tutorial Slides	Submit Assignment 2 Report by Tuesday, 26 May, 9pm Submit Group Member Evaluation by Friday, 29 May

Classes

Lecture

- 12 lectures (one *120-minute lecture* per week for 12 weeks).
- Monday 15:00-17:00 @Chemistry Building (Bldg 153)-L1-Cuming Theatre

Tutorial

- One *60-minute session* per week for 11 weeks
- Students must formally enrol in one of the classes

Announcement

Tutorial session time changes

- Labour Day Holiday in Week 2: There will be no Monday lecture! A replacement lecture is offered Thursday 14:00-16:00 @Biosciences 4 (Bldg147)-LG-Agar Theatre (Room G003)
- If you are not available for the Replacement Class, it will be recorded.

Student/Staff Interactions — Beyond Class Time

- Updates will be provided through announcements on LMS.
- Questions about the subject materials (*lectures, tutorials, and assessments*) must be asked on the **LMS Ed discussion forum**.
- Use **email** for personal, sensitive and urgent matters. If you send emails, always use your student email, otherwise your message will be ignored.
- Consultations will be scheduled for each assignment.
 - If you would like to request an additional consultation session, please contact the Head Tutor via Email (stella.peng@unimelb.edu.au).

Assessments

Assessment Component	% of Total Mark	Due Date
Assignment 1 (Group): <i>Analysis Plan</i>	15%	Assignment 1 Report submitted by Tuesday, 21 Apr, 9pm (Week 7)
Assignment 2 (Group): <i>Strategy Analysis and Solution Evaluation</i>	35%	Assignment 2 Report submitted by Tuesday, 26 May, 9pm (Week 12)
Final examination	50%	During the exam period

Hurdle requirements:

1. Students must obtain a *minimum total mark of 50* for both assignments
2. Students must pass the examination

Assessment Policies

- **Assignment submission**
 - Assignments submitted after the due date will incur a 10% penalty per day, unless an extension has been granted prior to the due date.
- **Extensions**
 - Will only be considered with a medical certificate or for genuine personal hardship.
 - With a medical certificate, you will only be granted an extension equivalent to the amount of days the certificate says you were unable to work on your studies (up to 10 days).
 - Poor time management or clashing assignment due dates will not be accepted as valid reasons for last-minute extra time.
- **Special Consideration**
 - There are different types of special consideration: unexpected and on-going.
 - If you have significant personal hardship that will affect you for more than 10 days, you should consider applying for special consideration by going to Stop 1.

Assessment Policies: Academic Integrity

- Please be aware of the University's Academic Integrity Policies.
- Source: <https://academicintegrity.unimelb.edu.au/>

Avoid academic misconduct

Academic misconduct is any breach of academic integrity, whether intentional or unintentional, that constitutes unethical and unacceptable behaviour. Academic misconduct can have serious consequences.

Examples of academic misconduct include:

- ✗ Plagiarism
- ✗ Collusion
- ✗ Purchasing, commissioning, selling or sharing essays or other assessment materials
- ✗ Sharing University teaching materials with third-parties, including uploading lecture notes, slides or recordings to websites
- ✗ Forgery or falsification of documents (such as transcripts or medical) to gain academic advantage or advancement
- ✗ Copying or possession of unauthorised materials in examinations
- ✗ Falsification or misrepresentation of data
- ✗ Submitting work generated from artificial intelligence software that is not correctly cited or where not permissible in a subject.

Penalties

What are the consequences of academic misconduct?

If a student is found to have deliberately plagiarised or colluded the penalties are severe and can include failure of a subject or exclusion from the University. The University provides extensive resources and educates students about academic integrity so that students are aware of what constitutes plagiarism and collusion, and the consequences of those practices.

Attribution & Citation

If your ideas are informed or developed by something you've read, seen or discussed you must attribute the source.

Any opinion you state must be informed by research and that research (called *evidence*) must be cited. For example -----→

As Information Systems is a social science using APA referencing is recommended for this subject

<http://library.unimelb.edu.au/recite/apa>

1.2.2. Procrastination

In addition to mood management motivations for viewing online cat-related media, news accounts suggests that many people watch cat videos online to avoid work or unpleasant tasks (FlorCruz, 2013; Garber, 2012). While online cat media is generally humorous or adorable, it may bring with it hedonic pleasures but little educational or utilitarian gains. Research on general motivations for media use also points to procrastination as a reason why individuals watch entertainment media. To procrastinate is

FlorCruz, M. (2013). Man spends time watching cat videos while outsourcing programming job to China. *International Business Times*. <<http://www.ibtimes.com/man-spends-time-watching-cat-videos-while-outsourcing-programming-job-china-1021474>>.

Garber, M. (2012). Science: Watching animal videos could make you a better employee. *The Atlantic*. <<http://www.theatlantic.com/technology/archive/2012/09/science-watching-animal-videos-could-make-you-a-better-employee/263042/>>.

Assessment Policies: GPT and LLMs

- Please be aware of the University's Academic Integrity Policies.
- Source: <https://students.unimelb.edu.au/academic-skills/resources/academic-integrity/acknowledging-AI-tools-and-technologies>

FEIT AI Use Policy

FEIT allows the use of Generative AI (GenAI) in open assessment tasks, unless the assessment instructions include a specific "AI Use Statement" that limits or prohibits the use. Using GenAI is not an academic integrity breach on its own. However, your submitted work must still be your own, and you remain fully responsible for meeting all academic integrity requirements – this includes properly acknowledging and referencing any GenAI you use. We encourage all students to take shared responsibility for their learning, and consider potential impacts on secure assessment tasks.

If anything in this policy is unclear, please speak with your teaching team for guidance.

Subject Expectation

In this subject, AI use is **permitted** in assessments. However, you must clearly justify how you used AI and distinguish your own contribution from the AI's contribution. Please refer to the assignment page for the specific requirements.

Assessment Policies: Grammar Checking

- **Grammarly / Google Docs Grammar checking is okay**
 - See the University's guidance on this
 - <https://www.unimelb.edu.au/accessibility/guides-for-students/grammar-checking-tools>
- **You must acknowledge the use of such tools in your assignments!**

Grammar Checking Tools

Spelling and grammar tools can be invaluable when editing content, but they can also be a distraction when drafting. By taking control of our grammar-checking tools, we can become more productive.

Writing Tips

Tips on how to separate the writing and editing phases and how to reduce distractions.

Grammar Highlighting in Microsoft Word

Microsoft Word adds a number of underlines to text in order to help editors.

Grammarly for Microsoft Word (Desktop)

Grammarly is an add-on for Word which offers spelling and grammar tips.

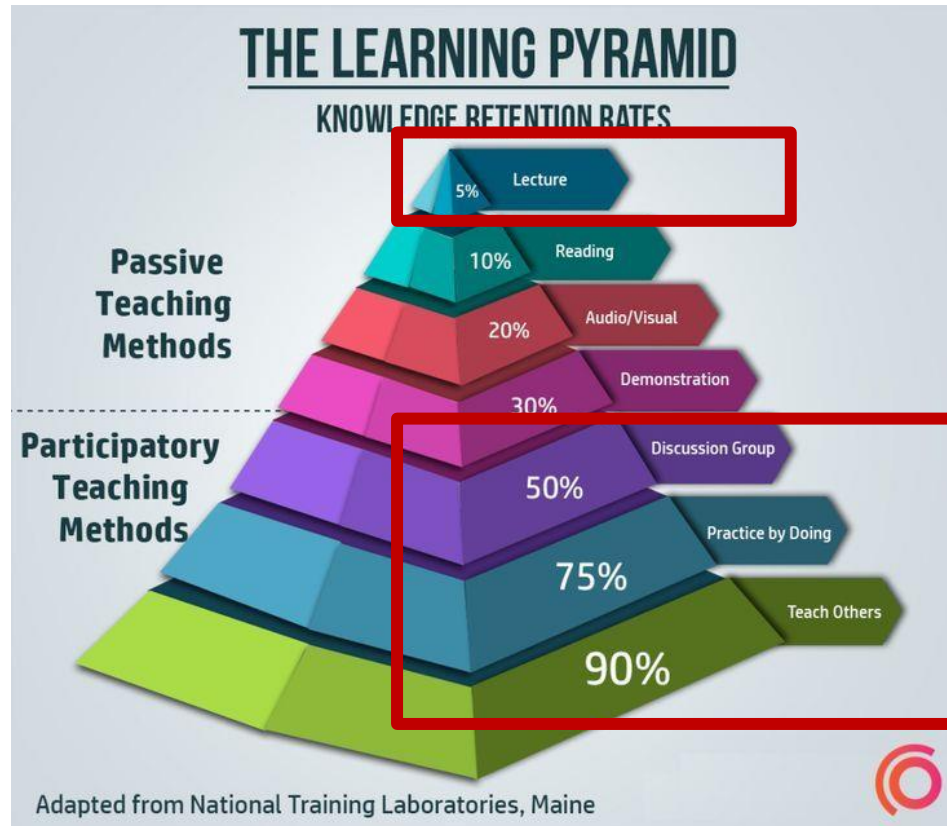

Grammarly for Microsoft Word 365 (Online)

Grammarly also has an add-on for Word 365.

Grammar Highlighting in Google Docs

Google Docs adds a number of underlines to text in order to help editors.

How do you learn best?

- It is essential to keep up with the weekly materials (Chow et al., 2025)

https://aaee2025.org/microsite/pdf/full-paper_270.pdf

Our aims

- Reasonable interactions throughout the semester: LMS discussion forum, classes, consultations and email.
- Weekly lecture notes and other supporting materials are made available on LMS by *Monday 9am*.
- Timely return of assessments with constructive feedback.

Student representatives needed

- We want YOU as a student rep!
- Must engage with all lectures and class activities
- Must be true representatives for all students
- Will communicate regularly with the teaching team
- If interested, email stella.peng@unimelb.edu.au

Use "*ISYS90049 Student Representative*" as the subject

THE UNIVERSITY OF
MELBOURNE

Why study Digital Business Analysis?

We started with this...

In 1956 IBM launched its first hard drive

- It contained 350 disks

...then we had this...

...today we have this...

<https://youtu.be/XQr4Xklqzw8?si=LMqW1dU9-z-0SvR7>

https://youtu.be/xnY-j43ih_0?si=7lYixpeLToKsDu8z

<https://youtu.be/bXKkZh2UEEA?si=FhpINBhk3z6VdYw5>

...and tomorrow?

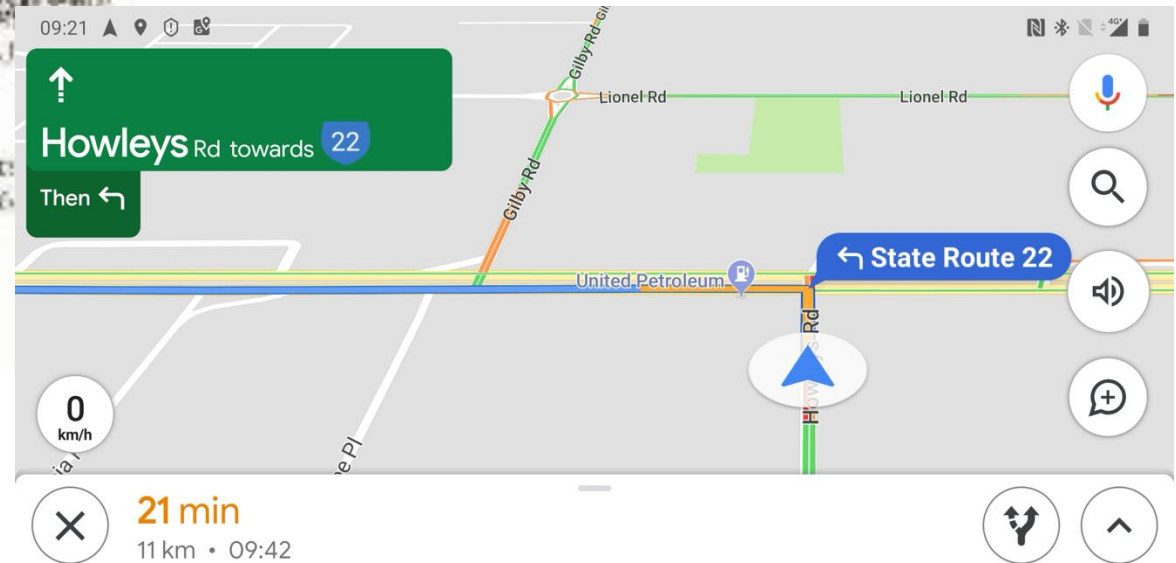

https://youtu.be/jLUUxVg53vE?si=6P_E06vAru23TPOS

Why DIGITAL Business Analysis?

FIRST

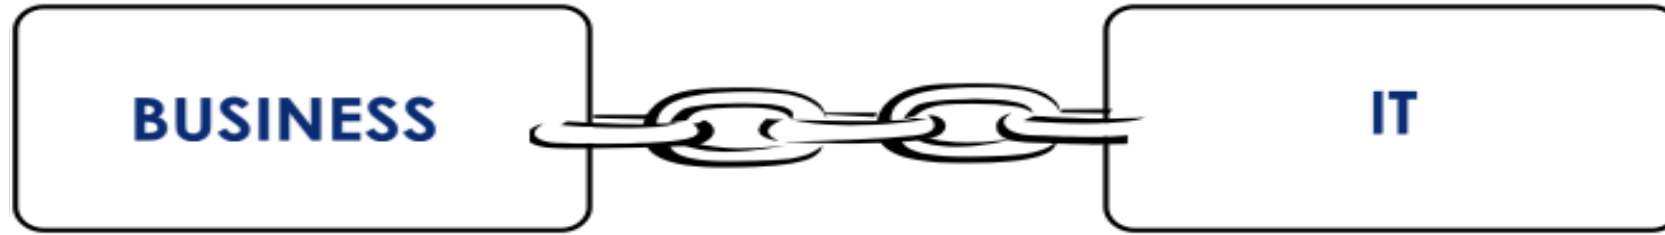

DIGITAL

Business-IT Alignment – Hard to Achieve

Business Requirements

What is Business Analysis?

“Business analysis is the practice of enabling **change** in an enterprise by defining **needs** and recommending **solutions** that deliver **value** to **stakeholders**”

Business Analysis Core Concepts (BACC)

Change

The act of transformation in response to a need.

Need

A problem or opportunity to be addressed.

Solution

A specific way of satisfying one or more needs in a context.

Stakeholder

A group or individual with a relationship to the change, the need, or the solution.

Value

The worth, importance, or usefulness of something to a stakeholder within a context.

Context

The circumstances that influence, are influenced by, and provide an understanding of the change.

What do Business Analysts do?

<https://www.youtube.com/watch?v=q0n29Y3eV6E>

Roles Played by a Business Analyst

Problem Solver

Facilitator

Negotiator

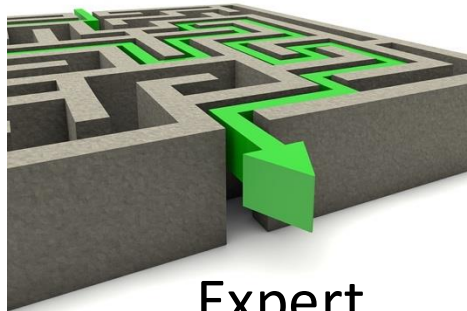

Architect

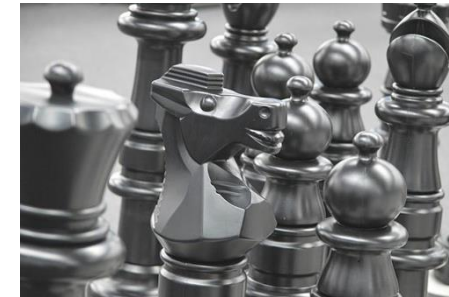

Communicator

Planner

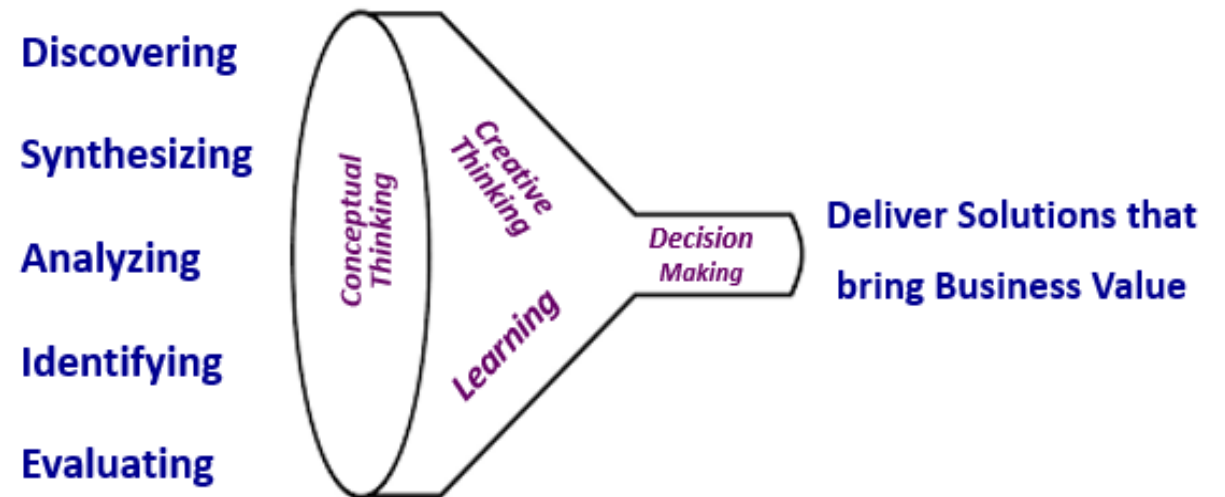

Expert

Strategist

Competencies of Business Analysts

- Analytical Thinking and Problem Solving
- Behavioural Characteristics:
 - Ethics, personal accountability, trustworthiness, adaptability
- Organization and Time Management
- Business Knowledge
- Communication Skills
- Interaction Skills
- Tools and Technology

Summary

- Successful digitalisation initiatives require **a good alignment** between *business needs* and *technology capabilities*, which is hard to achieve.
- (Digital) Business Analysis is a disciplined approach to *introducing technological solutions* that **address business needs** and *managing change effectively* within organisations
- Business Analysts need to have a good understanding of business and technology to **bridge the communication gap** between business and IT stakeholders.
- BA plays a **much broader role** in *today's digital age* and is **involved actively in all aspects** of business

Thank You!

Good Luck for this Semester!
