Workshop

You and several others have been asked to define a problem in a retail organisation.

There are several processes that contribute to a service value chain however, no-one has a full understanding of the value chain flow or outcome.

**Exercise
15 Minutes**

- In groups work with others to develop the value chain and identify the product or service.
- Draw your value chain.

Summary

This seminar has explored methods of communicating as a consultant

- Explore structured communication styles
- Define and understand the role of report writing
- Define the role of meetings in consulting
- Identify meeting success factors
- Explore the role of Interviews and workshops

A little rest

10 mins
